

Software Developer – London –Technologies: .NET v.4.0; C#; ASP.NET MVC

Band B2 Salary - £30,150 - £36,080

THE COMPANY

The Parliamentary Digital Service is a joint department of both Houses and is responsible for the strategy, delivery and management of Parliament's digital platforms. We are looking to build our digital capability and recruit talented, enthusiastic and passionate people, who will play a part in enhancing our democracy.

THE ROLE

We want to expand our team of outstanding Software Developers to help the Digital Service build, run and maintain great Digital Services for both Houses and the public. You will help specify, design and develop a range of systems taking responsibility for the design, coding and documentation. You will experience an array of technologies, from the relatively simple business process application to highly complex tightly coupled SOA architectures, API platforms, and the Semantic web

YOUR SKILLS AND EXPERIENCES

We are currently looking for a Software Developer who has:

- Experience using .NET v.4.0 or above with C#
- Experience using ASP.NET MVC Framework
- Effective team working skills with the ability to build good working relationships with users and Digital Service teams
- Agile Development Process experience, ideally scrum using TDD.
- Effective and creative approach to problem solving
- The ability to work across the full software development lifecycle

HOW TO APPLY

Please ensure that you send your CV with a covering letter. Your CV should demonstrate broadly how you meet the criteria in the job description. Your covering letter must specifically address the skills and experiences listed. Your application will not be considered if all three of these requirements are not completed.

SALARY AND BENEFITS

We offer a comprehensive benefits package including:

- excellent learning and development opportunities
- generous annual leave,
- contributory pension scheme,
- childcare voucher scheme, on site nursery,
- season ticket/bicycle loans,
- in house gym

We encourage work-life balance and working hours can be flexible to suit individual needs
